STATEMENT OF HENRY B. STEAGALL

To The People Of The Third Congressional District Of Alabama:

Congressman with a nice slice of government pork in sight.

It is a source of deep regret that recent illness and official issued by the Government legal tender, thereby preventing discrimina duties have made it impossible for me to give attention to my campaign for reelection. In the circumstances I am forced to rely on my friends. Through your generosity and extreme kindness I becountry is no longer chained to the gold standard currency basis. The country is no longer chained to the gold standard currency basis. The country is no longer chained to the gold standard currency basis. The country is no longer chained to the gold standard currency basis. It appears that most favorite came the chairman of the Committee on Banking and Currency of the House of Representatives. The legislation considered by this committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the economic welfare of our people than the committee affects more deeply the econo that of any other committee of the House of Representatives. As chairman I have had the authorship of many of the most important

REDUCED INTEREST FOR FARMERS AND STOPPED MORTGAGE FORECLOSURES press what is at the bottom of his heart by what he shouts at the Federal Farm Loan Act, which as first enacted and administered was a great boon to the farmers of the nation and saved to them directly of depression by lowering reserve requirements and interest rates and indirectly some \$2,000,000,000 in reduction of interest rates. A French educator opposes the study of mathematics by children types and other educator opposes the study of mathematics by children types and other educator opposes the study of mathematics by children types and other educator opposes the study of mathematics by children types and other educator opposes the study of mathematics by children types and other educator opposes the study of mathematics by children types and other educator opposes the study of mathematics by children types and other educator opposes the study of mathematics by children types and other educator opposes the study of mathematics by children types and other educator opposes the study of mathematics by children types of the study of types of types of the study of types of types of the study of types of the study of types of types of types of types of the study of types of ty under 10. The kids will doubtless payments on mortgages and stop the wholesale foreclosures on farms I have supported all legislation along this line for reduction of interest rates passed by the present administration, all of which A lady bather in Florida barely is in line with legislation for which I had fought for years. I voted escaped drowning, according to a news dispatch. "Barely" is doubtless the correct word.

for the first Frazier-Lemke bill passed during the 73rd Congress, which was declared unconstitutional, and I supported the later Act passed as a substitute for that measure. This inventing business is going too far. An Austrian has invented a contraction whereby eight to far contraction whereby eight to far contraction whereby eight to the first session in which I served a lit was meaning the first session in which I served a lit was meaning the first session in which I served a lit was meaning the first session in which I served a lit was meaning the first session in which I served a lit was meaning the first session in which I served a lit was meaning the first session in which I served a lit was meaning the first session in which I served a lit was meaning the first session in which I served a lit was meaning the first session in which I served a lit was meaning the first session in which I served a lit was meaning the first session in which I served a lit was meaning the first session in which I served a lit was meaning the first session in which I served a lit was meaning the first session in which I served a lit was meaning the first session in which I served a lit was meaning the first session in which I served a lit was meaning the literature.

RELIEF OF DISTRESSED HOME OWNERS

I have supported consistently measures extending aid to the slates in their efforts for the protection and promotion of public health. A doctor advises applying iodine of the lips before and after kissing of the lips before kissing after kissing after kissi which they through their organizations have asked of Congress. I am favor of legislation that recognizes the obligation of the Government to widows and minor children of deceased soldiers and that will afford them the protection and care of which they have been deprived drawing lucrative salaries. Intelligent and patriotic citizens have an stection and care of which they have been deprived opportunity to render a public service in exposing this attempted in An exchange tells of a pretty by the loss of their husbands and fathers.

BANKS SAVED AND FROZEN ASSETS MADE LIQUID It has been my privilege to sponsor the banking legislation Banking Act of 1933, under which the banks were permitted to open their doors and which embodied a plan that enabled the banks to and the present administration stand committed to carry on the carry of the committed to carry on the committed to carry on the committed to carry on the carry of the carry o use their assets as a basis for currency necessary to take care of their deposits. I introduced and sponsored the passage of a bill giving the full benefits of this legislation to state banks along with our hope of victory in the struggle lies in the fact that the South our hope of victory in the struggle lies in the fact that the South The Chestnut Grove home dem- banks that were members of the Federal Reserve System. onstration club met Wednesday afternoon, April 1, 1936, at the Reconstruction Finance Corporation Act providing loans upon the ranks that were members of the Federal Reserve System.

Understand This

THE TVA had in its control 250 million dollars worth of property during the years 1934 and 1935, on which, according to its own annual report, it paid during the year 1935 a mere \$16,900 in taxes.

The property of Alabama Power Company and of the Tennessee Electric Power Company equal about the same figure, namely, about 250 million dollars. During 1935 they paid 41/2 million dollars out in taxes.

Utility Companies Pay 270 Times More Taxes Than TVA!

In other words, the utility companies paid taxes 270 times as great as the TVA on the same property valuation.

And yet the TVA claims that it pays taxes on the same basis as private companies. You don't have to be a college graduate to understand the error of that statement.

for the Best Letters Telling How

POTASH TOP-DRESSING Stops RUST - Starts PROFITS

because they never try top-dressing with potash. When their crop makes a quick start "down hill" in July and August, they fail to recognize Rust as the real cause. Unless Rust is very severe its signs are hard to detect in the field.

Cotton Rust is potash starvation. No matter how hard you try to make a fine crop, if cotton can't get plenty of potash it becomes weak and starved and has to quit. Leaves turn yellow and brown and drop off. Bolls are small, poorly filled out and hard to pick. Yields are poor, lint is low quality and not uniform.

Top-dressing with 100 pounds of NV Granular 50% Muriate or 200 pounds of NV High-grade 20% Kainit per acre keeps cotton green and healthy, maturing fruit until a full crop is made (including a good top crop). It PREVENTS RUST, helps control Wilt and produces strong, vigorous plants with less shedding, larger bolls that are easier to pick and better yields of uniform, high-quality lint.

Thousands of tests by experiment stations and leading farmers prove it pays big dividends to give cotton a lot more potash than the average fertilizer contains. In these tests the many extra pounds of valuable seed cotton added to the crop by potash top-dressing were very profitable because they were produced at such low cost.

The time to top-dress with potash is when you chop out. This balances your plant food and helps you get greater benefits from other more expensive elements in your fertilizer. Use 100 pounds of NV Granular 50% Muriate per acre, or 200 pounds of NV High-grade 20% Kainit, or a nitrogen-potash, mixed-goods top-dresser containing plenty of NV POTASH. See Your Fertilizer Man Today!

COTTON never RUSTS when well-fed with
POTAS

CONTEST -RULES-

(Save these rules for reference) This contest is open to any cotton grower and to any cotton grower's wife, sons and daughters. All that any contestant has to do is to observe cot-

ton of the 1936 crop which has been top dressed with potash and write a simple letter of 250 words or less telling how POTASH TOP-DRESSING STOPS RUST AND STARTS PROFITS. The letters which best describe the beneficial effects of potash top-dressing in the prevention of cotton rust and the production of a healthy, high-yielding, high-quality cotton crop will be selected by three impartial judges and awarded the prizes in order of merit. Fancy writing does not count. Be sure to give your name and address.

DO NOT WRITE YOUR CON-TEST LETTER NOW. Write it after you have observed the effects of potash top-dressing on the 1936 cotton crop. Your contest letter must be mailed to: N. V. POTASH EXPORT MY .. Inc., Hurt Building, Atlanta, Georgia, before MIDNIGHT, OCTOBER 15, 1936, which is the date the contest closes. However, to become a contestant, each person must first fill out the coupon below, or a facsimile of the coupon, and mail it to the same address before MIDNIGHT, MAY 15, 1936. 3 Decision of judges is final. In case f ties, duplicate prizes will be awarded. Winners will be notified at the earliest possible date. Any letters or material become the property of N. V. POTASH EXPORT MY., Inc., and will not be returned. This contest is subject to the provisions of all Federal, State and local regulations.

MAIL THE COUPON BELOW BEFORE MIDNIGHT MAY 15, 1936. MAIL YOUR LETTER BEFORE MIDNIGHT OCTOBER 15, 1936.

If you wish, paste this coupon on the back of a penny postal card.

N. V. POTASH EXPORT MY., Inc., Hurt Bldg., Atlanta, Georgia I wish to enter the contest.

KING of Them All

Ouned by A. H. Goss, The Oaklands, Ann Arbor, Mich.

THERE ARE PLENTY of Jersey bulls in America, but only one among all the thousands, stands out as National Champion. Foremost Highflyer won 1935 honors at the National Dairy Show, St. Louis, Mo.-a magnificent creature to which Nature gave the vital spark, the perfect natural balance of all the elements that go to make a champion. Wonderful top line, great body, fine neck, shoulders, big barreled, good on his legs-Foremost Highflyer had everything!

Most bulls are just bulls, average strong, average good, but just plain ordinary bulls. There is only one Foremost Highflyer. He stands out the King of them all-the champion. The champion bull is Nature at her best-one of Nature's wonder creations. Favored by Nature, with her priceless gift of perfect natural balance, the champion is almost beyond price,

while another bull that may look a little like him-well, he's just And here is another wonder-creation of Nature-Natural Chilean Nitrate. Like the champion bull, Natural Chilean is favored by Nature with that priceless gift of natural balancenatural blend of many elements such as boron, calcium, manganese, etc., over and above its nitrogen. Nature gave the vital spark to this nitrogen fertilizer by blending into it these vital impurities. Nature herself aged it, cured it . . . that's why Natural

Natural Chilean contains almost two score of major and minor elements such as boron; magnesium, manganese, iodine, calcium, potassium, etc.—each a vital element in growth and healthy development of plants,

Chilean is the natural food for your crops.
